## TRISHAA:

Intricate and delicate like destiny meets fate...somehow describes the exceptional and poignant song writing skills of Trishaa Moran.

The depth of feeling which lies behind the beautiful facade of Trishaa's release has always been known to her most appreciative listeners. With her latest album, "Night Fragrances", Trishaa not only illustrates her understanding of the breadth of possibilities in the jazz idiom but also reveals her talent as a songwriter.

Trishaa's intimate and seductive interpretations of sensual ballads will continue to build on her solid foundation of creating songs that instantly become today's hits and tomorrow's standards. It is both a continuation of her impressive musical journey and a new stage of growth.

While some may be attracted to the lyrical portrait of her album, the ear is drawn to the elegant and effortlessly swinging accompaniment of the piano. From years of performing and playing music, she's managed to improve upon near-perfection by focusing on what she does best: delivering emotional songs with poignant, timeless lyrics.

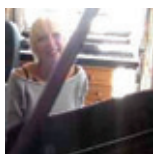

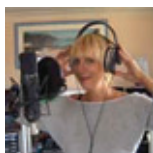

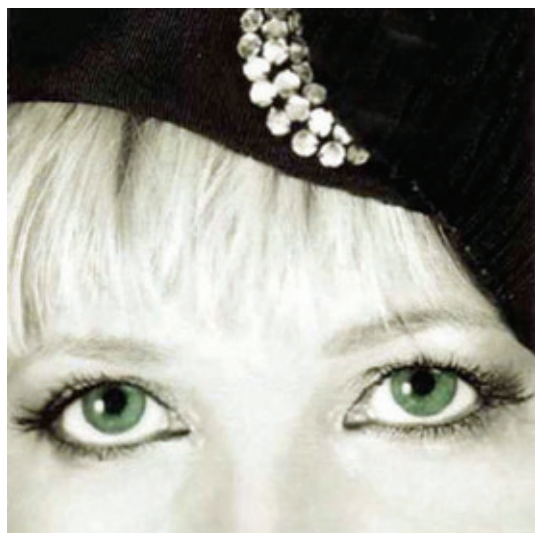

Sultry vocalist and pianist Trishaa developed her unique blend of jazz and classical vocals with hints of blues and pop due to her musical upbringing. Trishaa was born into a very creative and musical family where from the age of six she learned to play the piano and had singing lessons.

Trishaa started to write her own songs and poetry from a very early age and her performances were cover versions of material by other artists, which in many ways she made her own.

Living in London during her adolescence, she started to perform in a variety of clubs from the age of 17. Although studying classical music at the time, her heart drew her true love, jazz. At the age of 19, her parents moved back to Australia, where she continued her training as a classical singer – only to realise that her heart was in singing jazz and blues.

This resulted in Trishaa starting her own bands with which she performed in various clubs in Sydney. Over the years this changed slowly, when she began to realise the full potential of her own writing abilities. This finally resulted in Trishaa producing her own album, which she completed in April 2004.

Trishaa is currently in the process of extending her prolific writing abilities.
